DETAILED ACTION

Claims 1-6 and 16-21 are presented for examination. Claims 7-12 are cancelled.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 16-21 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In the previous office action, the examiner indicated 35 U.S.C. 112, second paragraph issues with the terms "partly masked" "partly delayed" and "partly interrupted" in claims 7, 8, and 9.

Although these claims have been cancelled and the claims rewritten, Claim 16 recites "control commands to the control pins of said memory are partly delayed" lines 4 and 5. Claim 19 recites "the data transferred to the data input/output pins of said memory are partly masked to achieve a non-seamless status" lines 3-5.

It is unclear to the examiner why/how (claim 16) the data can be seamless and partly delayed. It is also unclear to the examiner why/how the data would be partly masked to purposely achieve a non-seamless status. Since the term '*partly*' has not been located in the specification, the examiner would like Applicant to explain why/how this works in light of the specification.

Claims 17, and 18 are dependent on claim 16 and thus inherit the 35 U.S.C. 112, second paragraph issues of the independent claim. Claims 20 and 21 are dependent on claim 19 and thus inherit the 35 U.S.C. 112, second paragraph issues of the independent claim. Claims 17,18,20, and 21 will not be further considered on their merits.

Response to Arguments

Applicant's arguments, see page 5 line 6 through page 6 line 12, filed May 24, 2004, with respect to Claims 1-6 have been fully considered and are persuasive. The 35 U.S.C.103 a rejection of claims 1-6 has been withdrawn.

Allowable Subject Matter

Claims 1-6 are allowable.

The following is a statement of reasons for the indication of allowable subject matter: The present invention pertains to a method of testing memory systems with the seamless data input/output by interleaving seamless bank commands. The present independent claim recites: A method for testing memories with seamless data input/output by interleaving seamless bank commands, comprising the steps of: transferring data to data input/output (1/0) pins of a memory seamlessly; and inputting control commands to control pins of the memory seamlessly. Applicant's arguments with respect to the prior arts (see pages 5 and 6 of response dated 5/24/04) are convincing.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
